## Creating the feeling....

*What we remember most about rooms we like  
is the "atmosphere".* *Charlotte Moss*

## Try texture, not colour.....

BURNOUT SHEERS in our [SHEERS](#) Category..... a fabulous range from [JW Design](#).  
Using [TEXTURE](#) instead of colour adds visual interest without dominating a room.

See the new [DECOTRACK](#) Colours and Finials!

All are available in double tracks so they are perfect for having your Sheers on the front track and a Lining on the rear track. This combination of Sheers and Linings gives you the best of everything...light, daytime privacy, nighttime privacy and the bonus of better insulation.
